

Eric Tobin

224 Serenity Hills Pl. SE – 87123 Albuquerque, NM

☎ (850) 624-4299 • ✉ erictobin18@gmail.com

Objective

Aerospace Engineer looking for entry level position in propulsion systems design and testing.
Willing to relocate immediately.

Education

University of Illinois at Urbana-Champaign

B.S. Aerospace Engineering

Champaign-Urbana, IL

2012–2018

- Numerical Methods Elective
- Capstone Project: Aircraft System Design (Propulsion)
- Curriculum included freshman/ sophomore level electronics/ computing classes

Experience

Illinois Space Society (Student Organization)

Hybrid Rocket Engine Subteam Leader

Champaign, IL

2014–2018

Lead a team of 4-12 student engineers in creating a rocket engine propulsion system.

- Helped get project approved by organization
- Performed system sizing based on performance requirements and organizational needs
- Designed and prototyped engine components:
 - Cavitating Venturi Injectors
 - Parabolic de Laval Nozzle
 - Vehicle Integration Interface
- Completed Method of Characteristics and Computational Fluid Dynamics models of nozzle flow
- Designed and operated cold flow and static hot firing tests for design validation
 - Designed and constructed remote test control system
 - Wrote test and safety procedures
- Designed paraffin fuel grain high-pressure manufacturing process

Illinois Space Society (Student Organization)

NASA Student Launch Payload Subteam Leader

Champaign, IL

2013–2014

Created a detail design for a remote sensing electronics payload.

Independent Projects

Albuquerque, NM

Prototyped vacuum tube keyboard amplifier and simulated RISC-V compliant computer

2019–2020

Personal Information

- **Proficient:** Python, MATLAB; **Intermediate:** Rust; **Novice:** C/ C++, L^AT_EX, Arduino
- **Hobbies:** Tesla Coiling, Amateur Rocketry, Audio Electronics, and Cello
- Adaptable and used to working with new locations/ colleagues; parents are career military
